E.F.L. - European association for family and succession law

E.F.L. has the aim to create a **network of lawyers and scholars of Family and Succession law of the different European countries** who are capable, first of all, to offer a place of reflection, as well as cooperation and assistance in cases concerning Family law and Succession law that have cross-border features.

E.F.L. will organize an **annual convention**, from time to time in a different European country, in order to address the most actual and relevant topics with reference to the European law and to the evolution of the individual national laws.

The **first convention** will take place in Oviedo, Spain, on **September 29 and 30, 2017**.

Detailed information will be provided to the members successively.

E.F.L. will:

- Organize bilateral conventions in order to address problems that mainly regard two countries (for example, marriages between Italian and German nationals).
- Favour the exchange of trainees and young lawyers for periods of study and experience among law firms in other countries.
- Will organize translations of texts concerning Family and Succession law or documents of particularly relevant conventions held in Italian.
- Provide a regular newsletter via e-mail to all members on the most relevant news in Italy and the other European countries.
- Cooperate with the associations of Family law in order to organize seminars and meetings on a national as well as international level.

The **first seminar**, of the duration of half day, will be held on **April 20, 2017**, and will be on the privatization of the divorce. In this regard, detailed information will be provided soon.
